SHIVANISREE K B

PROSPECTIVE SOFTWARE ENGINEER

EDUCATION

Bachelor in Engineering

Computer science and Engineering

2024 - 2028

CGPA : 8.6

Rajalakshmi Engineering College

SKILLS

Programming Languages: C, C++, Python, Java

Database: SQL

Problem Solving & Analytical Thinking

Communication & Collaboration Skills

Eager to Learn Emerging Technologies

Core concepts: Data structures and Algorithms
DBMS, OOPs

PROFILE

Motivated and enthusiastic Computer Science Engineering student at Rajalakshmi Engineering College, aspiring to become a Software Engineer. Passionate about technology, problem-solving, and continuous learning. Actively participates in hackathons, workshops, and webinars to enhance technical and soft skills. Interested in exploring Artificial Intelligence and working on impactful software projects.

EXPERIENCE

Career Objective

To build a successful career as a Software Engineer by applying technical and problem-solving skills in developing efficient and innovative software solutions.

Projects & Interests

Engaged in small software-based projects during coursework. Keen interest in AI-driven applications and real-world problem-solving. Always open to learning new tools and contributing to team-based projects.

Workshops & Hackathons

Actively participated in technical workshops, webinars, and hackathons organized by various colleges. Improved teamwork, coding logic, and presentation skills through these experiences.

Strengths

Quick learner and adaptive to new environments.
Good communication and interpersonal skills.
Logical thinker with a problem-solving mindset.

Areas of Interest

Artificial Intelligence
Data Analytics
Software Development
